Dear John:

We want to thank you for the fine presentation at the '82 DoD-AOC Electronic Warfare Technical Symposium in San Francisco, 11-14 October 1982. You are probably aware of the very high praise for the technical excellence of the presentations and outstanding selection and coverage of critical issues and technology challenges for the "EW--A New Era Is Dawning" theme. Your generous and talented contributions were fundamental to this successful undertaking. The final phase of our efforts is to publish the Technical Symposium Proceedings at the same high quality level and in a timely manner. These proceedings are of great interest and value to the Electronic Warfare Community since they contain more descriptive detail than provided during the time limited presentations. In addition, many subscribers distribute these to others within their organization for much wider usage than possible just through the attendees.

We ask your assistance in preparing your manuscript presentation for publication using the guidelines furnished in the AOC Policy and Procedures Memorandum, Speaker's Guide and Manuscript Preparation and forward these as soon as possible to:

Security Officer
Physical Science Laboratory
New Mexico State University
P.O. Box 3548
Las Cruces, NM 88003
ATTN: L. B. "Jack" Fussell

It is necessary to establish a cut-off date for receipt of your prepared manuscript of 31 January 1983. Unfortunately, manuscripts received after that date will not be included in the '82 Technical Symposium Proceedings.

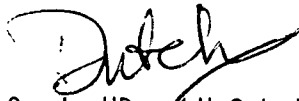

DCI
EXEC
REG

26 November 1982

Again, we encourage you to prepare and forward the manuscript as soon as possible, if you have not done so, to insure that the full benefit of your efforts will be made available to these 1700 attendees plus others that are interested and qualified to receive them.

Very truly yours,
